Today supporters rallied outside the Capitol along with sixty other cities came together to encourage one another not to give up on their presidential hopeful.

Mark Maxey with the Oklahoma City Democratic Socialists says he believes Bernie is also getting ready to reveal a plot twist.

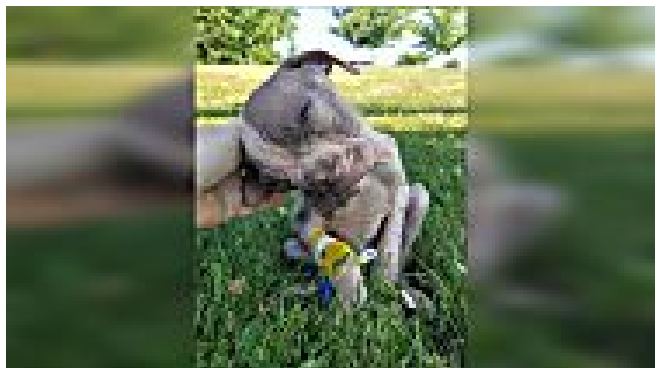

"Right now with the Wiki Leaks showing what the DNC and Hillary's camp did to stunt his place in voting, we may see some changes, he has endorsed her but he has not released his delegates," Maxey said.

Tomorrow the Democratic Socialists of America are hosting a DNC watch party, the public is invited to attend. The event will take place inside the Holiday Inn Express, 1629 S. Prospect at 6:30 p.m. in the Thunder Room.
